

Exceed Corporate & Regulatory Compliance Mandates with Nexsure Enhanced Security

Do you have regulatory or corporate compliance requirements for higher levels of security? Are you looking to further protect your organization's brand and reputation? If the answer to those questions is "yes", then Nexsure Enhanced Security is for you.

Advanced Security Package for Nexsure

XDimensional Technologies' vigilance and commitment to security has always been of paramount importance, and the Nexsure Agency Management Platform has been a marketplace leader in this area. The Nexsure Enhanced Security package takes this to an even higher level by offering additional security features that are geared for organizations whose corporate or regulatory compliance guidelines mandate more stringent requirements.

Security Features & Monitoring

Nexsure Enhanced Security subscribers will take advantage of a suite of additional Nexsure services, such as comprehensive

Database Encryption, the deployment of Multi-Factor Authentication and IP Filtering, as well as the provision of additional Accounting Controls, all designed to strengthen and protect your organization against cyber threats. This suite of security features is offered as an optional add-on subscription to the Nexsure Agency Management Platform.

Access to Annual SOC 1 Audit Report

In our increasingly connected world, customers can be confident in the security of our platform and the information stored therein. XDimensional Technologies performs ongoing security audits of the service environment and internal controls utilized in support of the Nexsure application (performed by an independent third-party auditing firm). By subscribing to Nexsure Enhanced Security your organization will have access to review our SOC 1 Type 2 Audit Report, issued on an annual basis by our auditing firm.

Nexsure Enhanced Security Includes the Following Benefits

- + Database Encryption
- + Multi-Factor Authentication
- + IP Filtering
- + Additional Accounting Controls
- + Annual SOC 1 Type 2 Audit Report
